

The name tells it all at Sequoyah Dental Arts

The patients of Dr. Pablo Foncea will attest to the fact that the improvements he makes to their smiles amount to true works of art.

Dr. Foncea is quick to add that is the very goal of his practice. "What we provide is artistic dentistry with a personal touch. We listen to our patients and answer all of their questions. We make them comfortable with their surroundings, their treatment and their finished look."

And those images on the walls of the reception area at Sequoyah Dental Arts? The walls that look like "miles of smiles?" Those are real people. They are all patients of Dr. Foncea who have had their looks transformed by beautiful smiles.

Some have had complete rehabilitation with crowns, veneers and implants, others

have had veneers and some whitening, still others have new custom dentures. Looking at the photographs, the dentures are so real looking and so artistically created that it is impossible to determine which of the patients are wearing dentures and which have all of their natural teeth.

"Creating beautiful smiles in the most artistic way possible and maintaining those smiles in a healthy and attractive manner for a lifetime is our goal," Dr. Foncea says.

To schedule your appointment with Dr. Foncea at Sequoyah Dental Arts, call 312-7695 or go to the website: www.sdasmile.com. Offices are located at 2719 Kingston Pike, just west of Concord Street.

New patients will receive \$100 off the cost of a comprehensive exam.
